Open in the Charac	ter Editor	
Character File: 🛛 🗟 Shot	okan ° 🛞	
Open in the Charac	ter Editor	
New Character		

Character File: The file representing the character in UFE. It inherits from the class CharacterInfo

Code access:

UFE.config.player1Character

UFE.config.player2Character

UFE.config.characters

Code example:

foreach(CharacterInfo character in UFE.config.characters){
Debug.Log(character.characterName);

}
